JOTHAM (FRANK) ARIMORO

Frontend / Full-Stack Developer

Lagos, Nigeria | +234 902 838 4734 | frankarimoro@gmail.com
github.com/boruto2468 | yukoto.download | northstar-academy-rosy.vercel.app

PROFILE

Frontend and full-stack developer with 3+ years of professional web development experience. Builds responsive React/Next.js applications, integrates APIs, improves user experiences, and works through debugging, testing, performance and deployment. Combines careful UI implementation with practical Node.js integration skills.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, accessibility, responsive design

Backend & Data: Node.js, Express, REST APIs, Firebase, MongoDB, TypeORM, Cloudflare Workers

Workflow: Git, GitHub, Redux Toolkit, Zustand, testing, browser debugging, deployment, technical documentation

SELECTED PROJECTS

Yukoto — Independent Developer | yukoto.download

Developed and maintained a responsive Chinese/Japanese language-learning website with guided study, vocabulary, reading and speaking practice. Worked on navigation, state handling, integrations, tests, deployment and custom-domain hosting.

Northstar Academy — Independent Developer | northstar-academy-rosy.vercel.app

Built a Next.js/TypeScript education application for Maths and Biology with curriculum-organized lessons, interactive exercises and generated practice. Worked on question/answer consistency, review flows, debugging and responsive interfaces.

PROFESSIONAL EXPERIENCE

Frontend Developer / Full-Stack Contributions | Solenk, Lagos | 2023–2025

Developed React/Next.js and TypeScript client interfaces; translated UI designs into reusable components, integrated APIs, improved performance and collaborated on review and maintenance.

Frontend Development Instructor | Mococodes, Lagos | 2023

Taught HTML, CSS, JavaScript and React, developed exercises, reviewed code and mentored learners.

IT Assistant / Technical Support | AFruitful Environment Limited

Handled technical troubleshooting, documentation, reporting and operational support.

EDUCATION & LANGUAGES

Certifications: Computer Engineering — Lekki Villa Computers (2022); Java Programming — Lekki Villa Computers (2019).

Languages: English (Native), Japanese (Fluent), Mandarin Chinese (Intermediate).
